-----

Dear Mr Kral.

The Above named Company owns six patented and several groups of unpatented claims in the Royston mining district.

The ore is straight silver - carrying very little gold with occasional lead values . Veins occur in metamorphosed shale

No production made from there for some time with the exception of one car of ore made about a year ago - this ore went between 40 and 50 dollars a ton

If you want to know more about it you should write to Mr R.A.Glenny at the above address in Salt Lake City Utah Mr Glenny is President of the Company and I am Resident Agent of same.

Yours Truly

Lee F. Hand
