NAME OF PROPERTY

4120 0011

249

Item 11

Liberty Manganese Co.
E. M. and Mabel E. Booth - Owners.
Tonopah, Nevada.

LOCATION

or San Antone
Liberty/Mining District, about 12 miles north of Tonopah, Nye County,
Nevada.

GEOLOGY

The ownership is in two groups of claims, viz: the Victory Group, and the Defense Group, about $2\frac{1}{2}$ miles apart. The rock exposures are tertiary volcanics, rhyolite and andesite. The veins or ledges are composed of the silicified country rock along premineral fault fissures. Manganese oxides occur mostly as a stain in the ledge matter, with occasional pockets or kidneys of manganese minerals.

DEVELOPMENT

Consists of location cuts only - no tonnage estimate.
