Silver Bell (East Extension of Chief)

W.P.

(Newman 1941):

Area.	Block	Positive Ore			Probable Ore		
		T.	% WO ₃	1bs WO ₃	T.	% WO ₃	1bs. WO ₃
East Extension of Chief (Silver Bell)	H				2,600	0.30	15,600
	J				1,360	0.89	24,208
	K				490	0.96	9,408
		Possible Ore			Totals		
	H				2,600		15,600
	J				1,360		24,208
	K				490		9,408

(Geehan 1944):

The ore reserves developed by project 705-A are on the western extension of the Silver Bell ore shoot:

	Indicated Ore			Inferred Ore		
	Tons	% WO ₃	Units	Tons	% WO ₃	Units
Total ...	4540	1.0	4540	18300	0.75-1.0	15975

Unexplored 900' to East.

(DMEA 1956):

... ore and concentrate sales 27 Jan. 1953 to 31 May 1956

... total tungsten ore ... 6,106.053 tons

(complicated as to production w/ DMEA percentages, etc.)

... total concentrates ... 4,994.6025 units WO₃ ... aver. 65.98% WO₃... grade plus 1% WO₃ (0.75-1.58%), ... also low grade 0.38-0.50%.

Closed down May 31, 1956... Superint. estim's ore reserves, east
and Silver Bell 300 level... 3-4,000 t. of 1.25% and also that
mine contained 30-50,000 t. 0.5% ore.
