

4390 0044

PROPERTY NAME: Shirley Property

OTHER NAMES:

MINERAL COMMODITY(IES): Au?, Ag.

TYPE OF DEPOSIT:

ACCESSIBILITY: One-half mile west of Silver Peak

OWNERSHIP:

PRODUCTION: Unknown

HISTORY:

County: Esmeralda

Mining District: Silver Peak

AMS Sheet: Goldfield

Quad Sheet: Lida Wash 15'

Sec. 28, T 2S, R 38E

Coordinate (UTM):

North 41171713130 m

East 0444215110 m

Zone +11

DEVELOPMENT: One shaft and several adits and many prospect-pits, good road.

ACTIVITY AT TIME OF EXAMINATION: None.

GEOLOGY: The shaft and adjoining workings are on a low hill of Cambrian sediments just west of Silver Peak. Photo #20. There is some question as to whether the dump material next to shaft really came from that shaft but it was similar to the materials elsewhere in the small mining area. Sample #1140 is from the dump and is composed of good looking sulfide mineralization in quartz vein material.

REMARKS: Sample 1140
