April 27, 1984

Gentlemen,

We were of course disapointed not to deliver the Mary Mine tailings to you at this time. However we will just have to wait for the price of gold to go up.

Dave, Ed Merwin just reminded me that you said you would give us copies of your assays and test work if the deal didn't go. We would be very interested to have this data and you can rest assured it is for Ed's and my interest only and that it will not be divulged to others in any part. We still want to ship you those tailings when the gold price permits.

Good luck.

Sincerely,

MBG/ha

Malcolm B. Gould

March 23, 1984

Gentlemen,

Enclosed please find the required authorization to enter on and remove such material as is required in your evaluation of the Mary Mine tailings. There is also a rather bad map (sketch) of the claim locations, dotted lines being new locations.

I intend being in Tonopah Tuesday 3/27th and will give you a map showing the additional ground.

Sincerely yours,

MBG/ha

Malcolm B. Gould

Dear Dudley,

Thanks for your letter dated April 1 just received. I think the intent is clear except for one thing: your over-riding royalty can only be paid out of what amounts to"net smelter returns". As written, your letter infers that we are obligated to pay royalty on all the metal produced, not considering milling and treatment, refining, marketing, ect. charges. That's why we have both used the "net smelter returns" phrase.

I would appreciate your indicating approval to this clarification by signing in the space below.

Very truly yours,

Malcolm B. Gould
