--	---

DESCRIPTION: White, to light gray pumicite - high quality (strong) but this low hill is just in front of new subdivision - would seem out of question to be allowed to develop.

RESERVES: Medium 15-20 million cubic yards (rough guess)

ACCESS: Beside Highway 17, 8 miles from Reno

OWNERSHIP: Trans-Sierra Corp.

SOURCES OF DATA: U. S. Geological Survey Bulletin 1042C and County Assessor.

ECONOMICS: Rezoning probably makes any type of operation impossible.

CONCLUSIONS: Will not be developed due to residential development.
