

Mining District: Stonewall

4660 0006

252

Item 7

Mine Name: Sterlog group

MILS Sequence No.: 3202300429

Location: Sec. 4, T. 5 S., R. 44 E.

252

County: Nye

Commodity: Silver

Production: None reported

Geology: Little is known of the deposit's geology other than the vein contained some silver minerals.

Development: Workings include a 240-foot shaft and a mile-long adit.

Periods of Activity: The Stonewall district was first propsected in 1905, and apparently small shipments were made in 1911 and 1915. The long adit on the Sterlog claims was driven in the 1920's; the property was subsequently abandoned.
