Pershing County.

Samples: None taken.

History and production

None reported

Mine workings at both places were inaccessible in August 1941 when engineer visited them. Owner Frank M. Maloney was applying for access road who later had a privately engaged mining engineer examine the properties.

On the advice of this engineer, Mr. Maloney withdrew his application since neither deposit was deemed worthy of further consideration.

Type Deposit (Geology)

Bureau of Mines engineer did not examine these properties.
