MEMORANDUM

TO: Mr. A. J. Anderson
Mining Division

FROM: L. Bunker

DATE: March 27, 1970

SUBJECT: Wesley Koyen - John Meier Transactions

Report: About March 23, 1970, Mr. and Mrs. Wesley Koyen came to the Hughes Tool Company office in Tonopah, Nevada to submit a report of their property at Tempiute, Nevada, which was for sale. They said that previously they had submitted it to Mr. John Meier of Hughes Tool Company. In the absence of Mr. Anderson, I took their report and later submitted it to Mr. Anderson.

On March 26, 1970, Mr. and Mrs. Wesley Koyen returned to the HTC office at Tonopah. They showed the writer of this report three letters.

Letter No. 1 - was written in the Spring of 1969. It was from John Meier to the Koyens stating that the company was interested in their property and they would send out a geologist.

Letter No. 2 - written in the Fall of 1969 was from John Meier to the Koyens and it stated that the company was not interested in their property.

Letter No. 3 - written in March, 1970 was from John Meier to the Koyens and stated that the company, (Toledo) was interested in the Koyen property at Tempiute, Nevada.

Without a direct quote, this is the sum and substance of the three letters that I read on March 26, 1970.

Respectfully,

L. Bunker

TO: Mr. A. J. Anderson
Mining Division

FROM: L. Bunker

DATE: March 24, 1970

SUBJECT: Mill and Mining Claims For Sale - 2 Parcels

Owner: Mr. Wesley Koyen
Tempiute, Nevada via Alamo, Nevada
Mail on this route twice a week, Tuesday and Friday. He lives in a yellow house by the well that furnished water to the Wa Chang Mine.

Location: At Tempiute on the Tonopah to Caliente, Nevada Highway. See the map attached.

Parcel 1: 11 Patented, 2 unpatented claims. Showing values in silver and lead. Assays on face showing - 20 to 30 oz. silver and 3 to 7% lead. Some ore bodies developed, needs a drilling program.

4 Unpatented Fluorspar claims with 20,000 tons in sight - a series of veins with a 12 ft. vein that will average 60%. Possibility of open pit. The Fluorspar claims are in the Quinn Canyon area.

Parcel 2: 11 Patented, 4 unpatented claims with predominant silver values. This property has some production record.

3 claims with predominant tungsten values. These claims are next to the Wa Chang Mine.

2 - 160 acre placer claims.

1 - 50 ton mill and equipment.

Parcel No. 2 is under lease to the Tempiute Mining Company and Mr. Koyen owns 55% of the stock.

History: This area is highly mineralized and a lot of tungsten was shipped from this area. Union Carbide has a lease on the Wa Chang and the Schofield properties, and are doing some extensive drilling. The Koyen property lies next to the properties under lease to Union Carbide, and is on the same vein and fault structure.

Koyen Report - Page (2)

Price: Price and terms are open.

Report: It might be well to have Mr. E. L. Stephenson check on this property and area. It may be that he is already acquainted with the potential of this district.

NOTE: Mr. Anderson, this party (Mr. Wesley Koyen) spoke to you about this property a few months ago and said that you showed some interest.

Mr. Koyen was one of the original discoverers and developers of the Tempiute Mining District.

He came in to see you and in your absence I took this report.

Mr. Koyen has a new 1969 Chevrolet truck, 10 wheeler, tandem drive with a 9 yard dump body, that he would like to sell or put to work. No price quoted.

Respectfully,

L. Bunker
