

THE ATLAS GROUP OF LOPE MINING CLAIMS

At the request of Thomas Colby, the writer has visited the Atlas Group of Lode Mining Claims and begs to submit the following factual data for his consideration.

LOCATION:

The Atlas Group of Gold, Silver and Lead Mining Claims locations are situated at the base of Blue Mountain, a long-time established landmark of Humboldt County, Nevada, and are approached by a county gravelled highway, 20 miles west-erly from the City of Winnemucca, thence $2\frac{1}{2}$ miles in a north-erly direction over the Atlas Mine private road to its termi-nus at the Atlas Mine headquarters, five thousand and eight hundred (5,800) feet above sea level.

The climate is such as to offer every day in the year operation. Rarely, if ever, over six (6) inches of snow re-main on the ground over forty-eight (48) hours.

DESCRIPTION:

Incorporated in the Atlas Mine "holdings" are twelve (12) lode mining claims locations and three (3) fraction claims de-signated as follows:

Atlas Nos. 1 - 2 - 3 - 4 - 5 - 6 - 7 - 8 - 9 - 10 - 11
and 12.

Atlas fraction claims locations Nos. 1 - 2 - and 3,
comprising in all fifteen (15) claims, twelve (12) full regu-lation lode-mining claim locations and three (3) fractions of claims, all legally appropriated and duly recorded in the ar-chives of the Humboldt County Courthouse, the County Seat of Humboldt County, in the City of Winnemucca, State of Nevada.
