NEVADA BUREAU OF MINES AND GEOLOGY

11 February, 2002

Lillian Rice
2726 Springfield Road
Broomall PA 19008

Dear Ms. Rice:

Thank you for sending NBMG the old map, photos, postcards, and bulletin of early mining days in Tonopah. Do you have any more information on the history on the photos, such as who is pictured in them, or what mining claim was being worked? Would you mind sharing with us the source of the photos, maps, postcards, etc. is and how you came to have them? It would help us in adding them to our mining district files.

Thank you very much for your donation of this material; it is much appreciated and a nice addition to our historical Nevada mining collections on file! Becky Weimer is no longer with us here at NBMG, but I have assumed some of her duties, and will pass this material on to the appropriate people here for archiving.

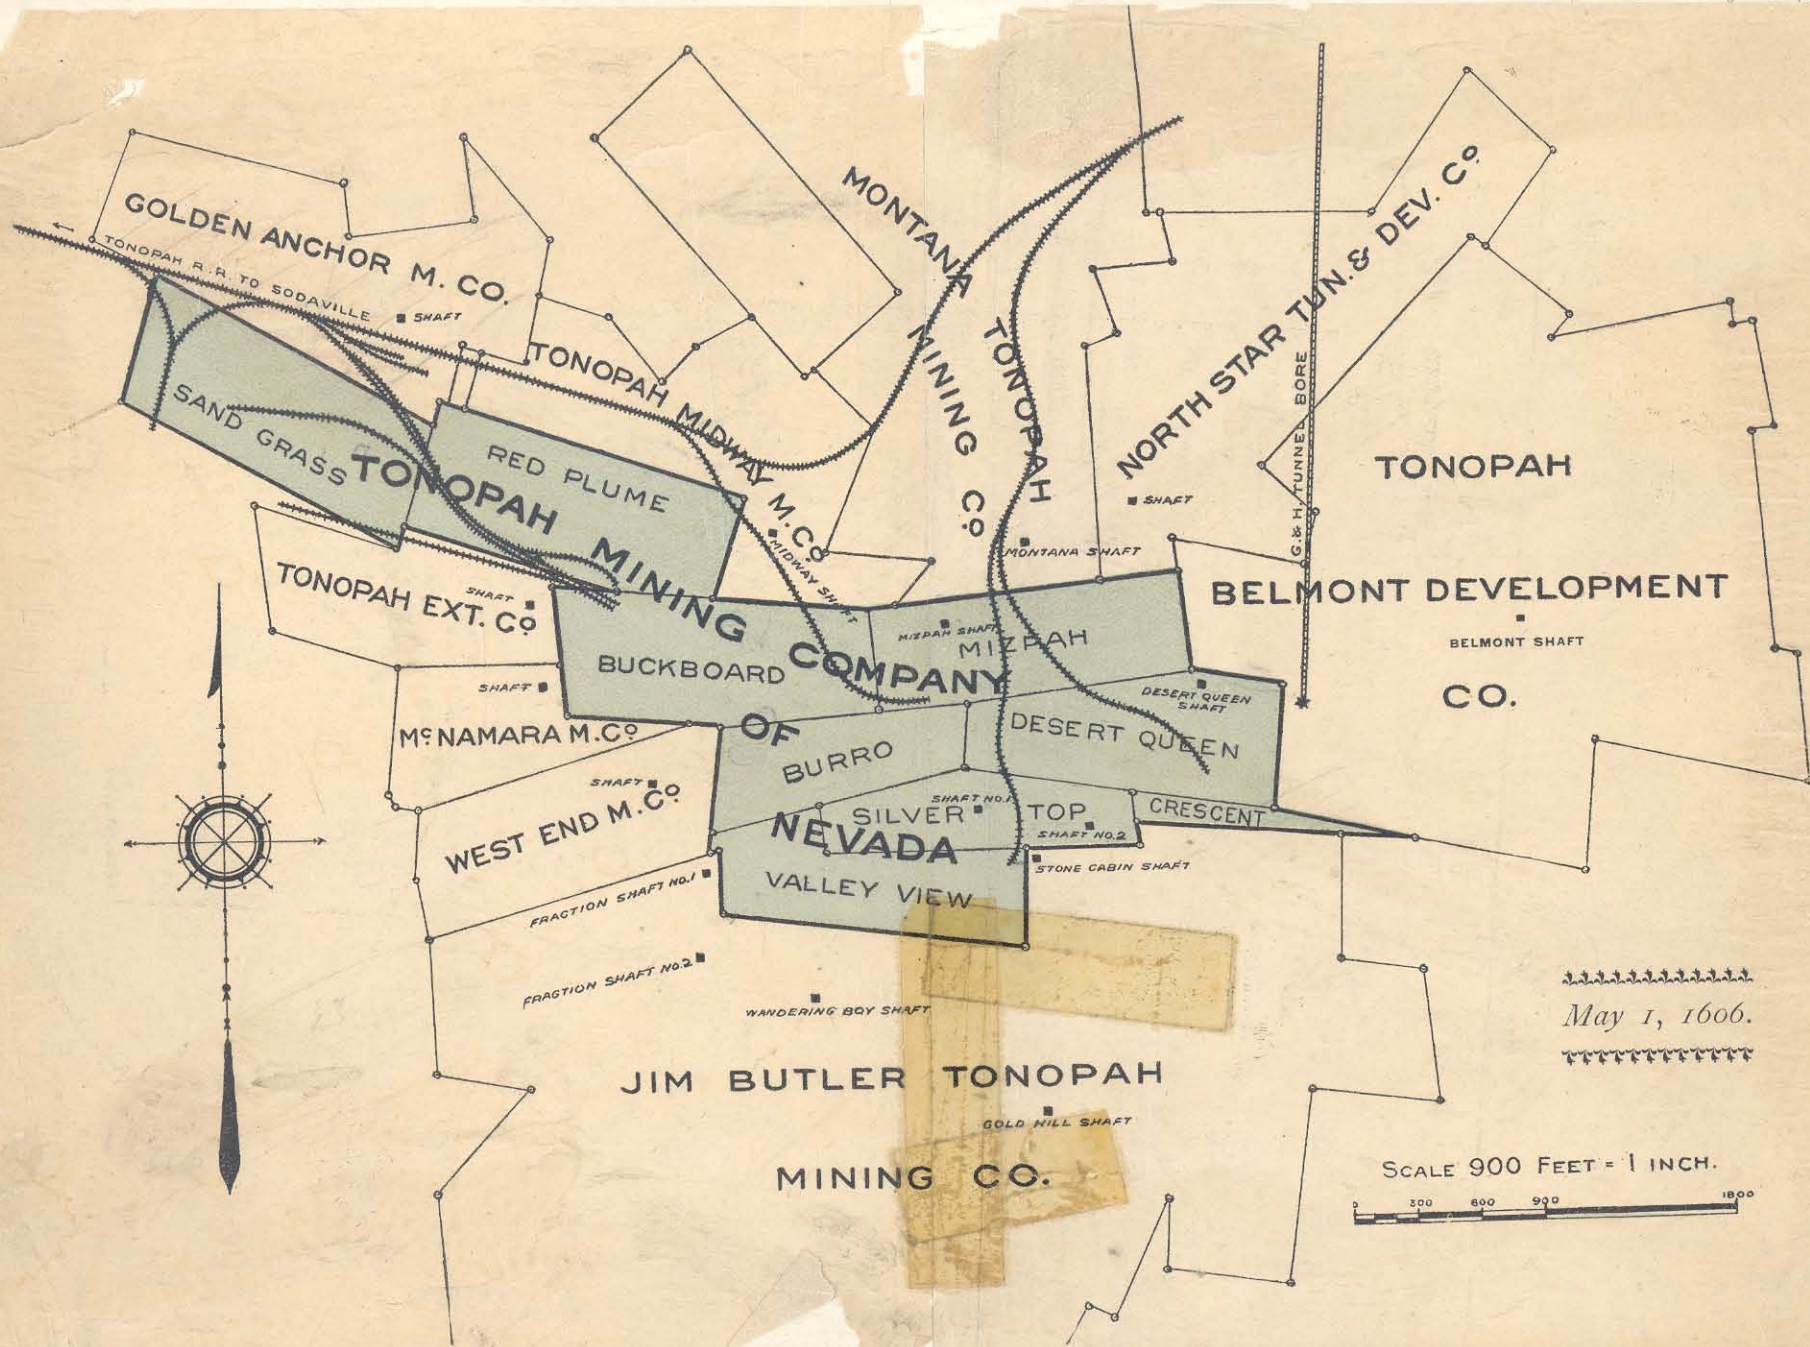

Most Sincerely,

Daphne D. LaPointe
Geologic Education and Outreach Coordinator, NBMG

Unfortunately we have limited knowledge. The articles we sent were owned by Charles Nonemaker (an uncle) he was an officer of the mining company and handled their financial records, payroll, etc.
