DEVELOPMENT: _____

ACTIVITY AT TIME OF EXAMINATION: Open pit mining?

GEOLOGY: Small open pit(?) operation for Au & Ag is currently active at the E mouth of Ophir Canyon. The area was not visited as no one was in the trailers on the property which was protected by big dogs. Trailers, trucks (one with sign reading, "Gold & Silver Mining Co." & mining equipment (old looking) is found at the entrance to Ophir Canyon. A newly bladed road to the workings north of the East mouth of Ophir Canyon indicates they are working in the area of the old workings at T13N, R42E Sec.34. A pile of ore suggest they are hauling ore from this area & stockpiling at their site just south of the road at mouth of canyon.
