WEEPAH, NEVADA
Two weeks after discovery

The two kids who discovered the
\$78,280.00 Ore
No wonder they smile.

Send you with this panorama picture of Weepah, Nevada. To anyone wishing a copy, we will be pleased to mail one FREE. Write to WESTERN MERGER MINES CO., P. O. Box 5021, Reno, Nevada. It will be mailed at once. Tonopah was discovered when one of Jim Butler's burros strayed from camp. Next morning Butler went after him. While doing this he knocked off a piece of croppings. Later he had it assayed, and it ran into the thousands. Since that time Tonopah has produced hundreds of millions. Goldfield was discovered by two young prospectors. Everybody knows the millions Goldfield has produced. WEEPAH was discovered by two nineteen-year-old boys. They saw where a badger had dug his hole. Picking up a handful of dirt, it was half gold. The whole country is talking. Let us see if Weepah can beat Tonopah and Goldfield.
