

5290 0050

(344) Item 50

PROPERTY NAME: Mobil &amp; Equality Patented Mine

OTHER NAMES:

MINERAL COMMODITY(IES): Ag, Pb, Cu

TYPE OF DEPOSIT: Replacement in limestone

ACCESSIBILITY: Up Rocco Canyon East side

OWNERSHIP: F. W. Lewis

PRODUCTION: ?Unknown

HISTORY: ?

County: White Pine

Mining District: White Pine

AMS Sheet: Ely

Quad Sheet: Green Springs 15'

NE/4 NE/4

Sec. 26, T 16N, R 57E

Coordinate (UTM):

North 4 3 4 3 1 0 0 m

East 0 6 2 7 9 5 0 m

Zone 11

DEVELOPMENT:

ACTIVITY AT TIME OF EXAMINATION: None. Altho there are signs of fairly recent activity on both F.W. Lewis properties. Mainly clearing brush & roads with dozer.

GEOLOGY: Cu oxides observed on dump. No sample just like previous samples taken in this canyon. Mineralization from fault zone - can see slickensides on gossanous ore rock lying on dump.

1) Medium-gray limestone on surface in workings area.

REMARKS: Picture on camera - slide #4. Looking east. Sign has name of mine & name of owner & states that ground is patented.

2) can also see where property line has been recently brushed out on north(?) edge of this property.

3) Recent work done on brushing out all property boundaries.

4) Counted 3 workings on west side of canyon & 3 or 4 workings on east side of canyon. Most are caved. Has been fairly recent dozer work in immediate area - within 1 year.

5) New lath marks at mouth of Mobil-Equality tunnel. Adit caved. Appears that it may go in several hundred feet. Trends N35°E. Cu oxide observed on this adit's dump also.

EXAMINER: RBJ
