14 WH H	344) Item 56
PROPERTY NAME: Mary Ellen Mine Mc Ellin Mine	County: White Pine
OTHER NAMES:	Mining District: White Pine
MINERAL COMMODITY(IES): Ag, Pb, Zn, Au	
TYPE OF DEPOSIT: Replacement (along shears?)	Quad Sheet: Pancake Summit 15
ACCESSIBILITY:	Sec. <u>14</u> , T <u>16N</u> , R <u>57E</u>
OWNERSHIP:	
PRODUCTION:	North 4 3 4 6 5 0 0 m East 0 6 2 6 9 0 0 m
HISTORY:	Zone +11
DEVELOPMENT: Many small buildings including blacksmith shop & assay lab. 1 small partially caved adit with mine track running out of opening on to dump. Ore shoot is also on dump. Extensive underground workings indicated by large dump. ACTIVITY AT TIME OF EXAMINATION: None. GEOLOGY: Tree covered slope & caved adit did not allow for structural observations. However adit explores limestone & the dump rock is predominately dark grey to light grey limestone & hematitic gossan.	
A dirt road leads to 6 workings north of the Mc Ell open, the others are caved. All adits explore lime	in mine. The lowermost adit is
open, the others are caved. All auto explore line	stone & trend to south or A Souw.
