Item 12

Silver Crown Group

Fred and Margaret Gorham - owners
Winnemucca, Nevada

LOCATION

Winnemucca Mountain Mining District, Humboldt County, Nevada, 4 miles from Winnemucca.

GEOLOGY

Fractures filled with iron oxide and vein matter over very narrow widths. Fractures strike in various directions in metamorphosed shale. Values are in silver occurring as a chloride and sulphide. Values do not penetrate to any depth.

DEVELOPMENT

Developed by two adit tunnels - 275 feet and 240 feet in length, respectively, and having a difference in elevation of approximately 50 feet.

Ore reserves: Some tonnage is indicated on the assay maps, but it is spotted and does not amount to over a few hundred tons.
