Mr. C. B. Foster  
Fairchild Aerial Surveys, Inc.  
224 East Eleventh Street  
Los Angeles 15, California

Dear Mr. Foster:

This will confirm the order placed with you  
by phone early this afternoon for 200-scale enlargements of  
the following aerial photographs in the Yerington, Lyon County,  
Nevada, area:

<u>Photo Number</u>	<u>Photo Number</u>
5-46	5-72
5-47	5-73
5-48	
5-49	6-66
5-51	6-67
5-53	6-68
5-55	6-70
5-56	6-72
5-65	6-74
5-71	6-75

These photos are stamped with your Job Number  
21060 and the flight was made March 20, 1955.

Please submit the statement covering this work  
to this address.

Yours very truly,

James R. Wilson

Room 201, 410 Mill Street  
Reno, Nevada

Dear Mr. Wilson:

Thank you for your order of April 28, 1956.

This order for 50 enlargements of the Yerington  
area has been placed with our production department.

Delivery by air express may be expected on or  
about May 9.

Yours very truly,

FAIRCHILD AERIAL SURVEYS, INC.

Mr. C. B. Foster  
Fairchild Aerial Surveys, Inc.  
~~224 East Eleventh Street~~  
Los Angeles 15, California

Dear Mr. Foster:

We would like to secure one print each of the following photographs which you took for us in late ~~1954~~ and early ~~1955~~. I recognize that with the variation in elevation scales will be only approximate.

Project No. 21060 Scale 1" = 200'

Photos: ~~6-6~~ to ~~6-15~~, inclusive  
~~6-54~~ to ~~6-64~~, inclusive  
~~5-36~~ to ~~5-43~~, inclusive

Project No. 21060 Scale 1" = 1,000'

<del>1-4</del>	1-12	1-26	1-43
<del>1-5</del>	1-14	1-27	1-44
<del>1-8</del>	1-16	1-29	1-49
1-10	1-18	1-33	1-50
<del>1-11</del>	1-19	1-42	1-51
			1-53

Will you please advise as to the approximate delivery date of this order.

Yours very truly,

James R. Wilson

Re: Yerington District  
Lyon County, Nevada

Dear Mr. Foster:

This will authorize you to proceed with plans to fly the two areas in the Yerington district, Lyon County, Nevada which we discussed by telephone on October 8 and which are outlined in detail on the accompanying maps.

Area I, outlined in black on the enclosed Yerington quadrangle sheet, lies along the east side of the Singatse Range immediately west of our Yerington Mine operation. Area II, outlined in black on the Wabuska quadrangle, covers an area of low, rolling hills situated three miles north of Area I. In view of the small scale of the Wabuska sheet, I have also outlined Area II on a separate 1000-scale sheet with reference to the land grid in the hope this may be of more specific aid to you in the location of the area.

After considering the two estimates which you quoted, we feel that our needs will be adequately satisfied by the maps produced at your estimated cost of \$6,750. It is my understanding that for this sum you will:

1) Supply us with positive film enlargements (produced from 200-scale inked tracings) of Areas I and II at a scale of 100 feet per inch, from which, we may make our own prints.

It is understood that maps of Area I are to have 20-foot contours and Area II 10-foot contours. Further, that all roads, cuts, trenches

Mr. C. B. Foster

October 15, 1954

2.

and other similar features in both areas are to be portrayed, and that both areas will be tied coordinate-wise to our established mine grid system.

2) Furnish aerial photos of Areas I and II photographed at a scale of 600 feet per inch which you state can be enlarged to 200 feet per inch without marked loss of detail.

Should there be any substantial revision in your above estimate after you have had opportunity to study in detail the areas involved, please advise me accordingly, otherwise, we would appreciate your starting this project at your earliest convenience.

Yours very truly,

James R. Wilson

Mr. James R. Wilson  
The Anaconda Company  
29 East First Street  
Reno, Nevada

Dear Mr. Wilson:

With reference to our telephone conversation of June 15, we are enclosing ozalid reproductions of the photo-index maps for our available photography in the Yerrington area.

You will note that these projects were obtained for your Company. It is quite possible, however, that you do not have all of the materials available from Project C-22120, since it was obtained in connection with a magnetometer project.

Please let us know how we can be of further assistance.

Very truly yours,

FAIRCHILD AERIAL SURVEYS, INC.

Dear Mr. Sanborn:

I am writing to request five (5) additional X2 enlargements from the Yerington area aerophotographic coverage (4-23-65) which you have enlarged and printed for me in the past. The photo numbers are 1-72, 1-74, 1-15, 1-16, and 1-17. A factor of two enlargement should yield prints at a scale of 1"=1000', exactly as with the enlargements previously supplied.

Thank you for your assistance.

Very kindest regards,

*Hunter Ware*

March 28, 1972

Mr. Ed Sanborn  
Horizon Surveys  
3249 Cahuenga Blvd, West  
Hollywood, California 90028

Dear Mr. Sanborn:

I received today 34 contact prints and five X2 enlargements from the Yerington area aerophotographic coverage, together with your statement for \$74.50.

The enlargements which I ordered were 3-1, 3-2, 3-28, 3-29, and 3-30. Apparently, an enlargement was made of 2-28, by mistake (enclosed). The rest of my order was correct. Accordingly, I have deducted \$7.00 from your statement. My check for \$67.50 is enclosed.

There is no need to reorder an enlargement of 3-28. We will proceed, using the other four prints. Thank you for your assistance.

Yours very truly,

Hunter Ware
